

Curriculum

Courses in major subject or related fields (20-30 ECTS)

Compulsary courses

- A course on research ethics
- Subject specific compulsory courses:
 - Bioseminar course (Compulsory course for Biochemistry and Cell Biology).
 - Midterm/Licentiate/Halftime seminar (Compulsory course for MM/EMB)

Courses that support your PhD project

- **Advanced-level courses** in the major subject or related fields
- **Methodological courses:** e.g., statistics, experimental design, bioinformatics tools

Scientific Work in Other Research Institutions (Max 5 ECTS)

- **1 ECTS per week** in a national or international host laboratory.

Participation in Conferences (Max 5 ECTS)

- Participation must include your **own oral or poster presentation**.
- Full **5 ECTS** requires participation in **at least 2 international conferences (abroad)**.
- **1 oral presentation = 1 ECTS**
- **1 poster presentation = 1 ECTS**

Scientific Publications Not Included in the Thesis (Max 3 ECTS)

- Participation in manuscript writing = 1 ECTS

General skills/minor subject area (0-10 ECTS)

Teaching and Supervision at University Level (Max 5 ECTS)

- **Lecturing (own material):** 6 × 45 min = **1 ECTS**
- **Teaching in practical/lab courses:** 10 h = **1 ECTS**
- **Other teaching activities:** 27 h = **1 ECTS**
- **Supervision of BSc thesis:** **1 ECTS** per thesis
- **Supervision of MSc student (lab + thesis):** **2 ECTS**
- **Supervision of interns:** e.g., one 10 ECTS student or two 5 ECTS students = **2 ECTS**

Other Studies

- University pedagogics courses
 - Language courses (max 5 ECTS)
 - Academic and scientific writing courses
 - Communication and career development courses
 - Public engagement (e.g., school visits, PR events): **1 ECTS per 3 visits or 27 h of work**
