

# Curriculum

## Courses in Major Subject and Methodological Studies (Minimum 20 ECTS)

---

### Any courses that support your PhD project directly

- **Advanced-level courses** in the major subject or related fields:
    - e.g., biochemistry, cell biology, ecology, biomedicine, pharmacy, bioinformatics
  - **Methodological courses:**
    - e.g., statistics, experimental design, bioinformatics tools
  - Courses can be **local, national, or international**.
  - **A course on research ethics is required**
- 

### Scientific Work in Other Research Institutions (Max 5 ECTS)

- **1 ECTS per week** in a national or international host laboratory.
- 

### Participation in Conferences (Max 5 ECTS)

- Participation must include your **own oral or poster presentation**.
  - Full **5 ECTS** requires participation in **at least 2 international conferences (abroad)**.
  - **1 oral presentation = 1 ECTS**
  - **1 poster presentation = 1 ECTS**
- 

### Scientific Publications Not Included in the Thesis (Max 3 ECTS)

---

- Participation in manuscript writing = **1 ECTS**
- 

### Transferable Skills (Max 10 ECTS of the required 30 ECTS)

---

#### Teaching and Supervision at University Level (Max 5 ECTS)

- **Lecturing (own material):** 6 × 45 min = **1 ECTS**
  - **Lecturing (prepared material):** 12 × 45 min = **1 ECTS**
  - **Teaching in practical/lab courses:** 10 h = **1 ECTS**
  - **Other teaching activities:** 27 h = **1 ECTS**
  - **Supervision of BSc thesis:** **1 ECTS** per thesis
  - **Supervision of MSc student (lab + thesis):** **2 ECTS**
  - **Supervision of interns:** e.g., one 10 ECTS student or two 5 ECTS students = **2 ECTS**
- 

#### Other Studies

- University pedagogics courses
- Language courses (max 5 ECTS)
- Academic and scientific writing courses
- Communication and career development courses

- **Public engagement** (e.g., school visits, PR events): **1 ECTS per 3 visits or 27 h of work**
  - **Other transferable skills** (e.g., computing, project management): **27 h = 1 ECTS**
-
